

Information exchange: Ketut's holiday food diary

Materials needed:

Information exchange activity sheets: 'Ketut's holiday food diary' either on digital device such as iPad or printed out and pen/pencil.

Instruction for students:

Working with a partner, your teacher will give you each an Info exchange activity sheet, one of you will receive worksheet A and the other will receive worksheet B.

Each worksheet has different information about Ketut's daily holiday food diary of what he had to eat and drink for one week while holidaying in Indonesia. Your job is to work with your partner (but don't look at each other's sheets!) and fill in the missing foods and drinks from Ketut's food diary for the first week of the holidays.

You will need to ask your partner questions to find out the answers so that you can fill in the missing information from your food diary, and they will need to do the same to fill in the missing info on their food diary.

For example:

'Pada hari Senin, Ketut makan dan minum apa untuk makan pagi?'

or

'Ketut makan dan minum apa untuk makan siang pada hari Selasa?'

Answers could be:

'Pada hari Senin, Ketut makan nasi goreng dan minum jus jeruk untuk makan pagi.'

or

'Ketut makan nasi campur dan minum jus semangka untuk makan siang pada hari Selasa.'

Once you have filled in all the missing information, then compare sheets A and B to see if you were correct.
